

Science Fair

(8th grade)

- All projects must focus on the physical sciences and be displayed on the appropriate display board.
- Students may work individually, in pairs or small groups of no more than four.
- Projects must be approved by your teacher.
- Project displays have to be safe (no flames, dangerous chemicals or materials which may pose allergy threats).
- There will be a limited amount of class time to work on your project, so plan time out of school to work on it.
- You will be graded on a rubric.

Choose one of the following formats for your science fair project:

☐ Inquiry (using the scientific process)

☐ Renewable Energy recourses

☐ How it works

Name(s): _____

Project: _____

Section number: _____
